Wellbeing enhanced. Space optimised.

Ology bench adds the benefits of height-adjustability to a wide range of benching applications, improving individual and organisational wellbeing while maximising real estate. Whether users are in need of a temporary workspace or collaborating with team members, they can easily adjust their worksurface height to support the position that's right for them and their work.

5 HOURS 41 MINUTES

each day spent sitting at a desk.

*British Psychological Society conference,
January 15, 2012.*

ENHANCED COLLABORATION

The geometric H-shape of the side frame provides a clean desk aesthetics, without boundaries between workstations.

This encourages users to connect and to have quick and informal conversations.

WELLBEING AT THE BENCH

Shifting postures throughout the day helps employees stay refreshed and engaged.

Ology bench users can change their work surface height, stimulating physical, mental activity and ergonomics.

GET YOUR SPACE RIGHT

Ology bench can be easily reconfigured and facilitates efficient space planning.

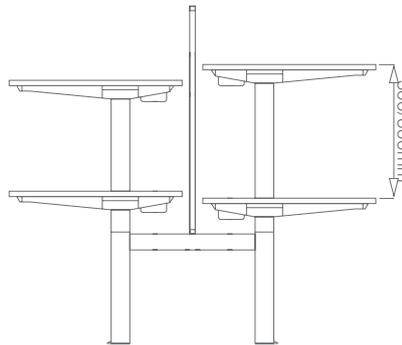

The central cable trough allows convenient and discreet cable management for facility managers.

STATEMENT OF LINE

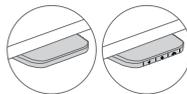

HEIGHT ADJUSTMENT

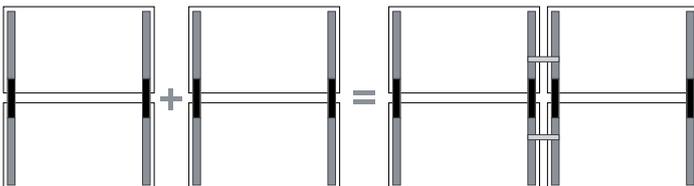

**Desk Telescopic
Desk Crank**
H620-900mm
Compensation 10mm

Desk electric
H680-1180mm / H650-1250mm
Compensation 10mm

The different height versions can be connected laterally via a pair of connectors, this allows for the application to be easily reconfigured at any point or time or to add more workstations in the future.

SURFACE MATERIALS

Surface materials shown in brochure:

- AT Acacia
- WY Snow White
- ZW Pearl Snow

Colours are representative and may vary slightly from actual material.

SUSTAINABILITY

- PEP Product Environmental Profile
