

ASSEMBLY

shaw contract®

Creating synergy

The places where we work, play, learn and heal are blending, becoming more flexible and multi-functional. Assembly represents a thoughtful approach to the floor that reflects the evolving needs of our interior environments. It sets the foundation for impactful moments, encouraging conversation, collaboration and a sense of belonging. Assembly is meant to encourage meaningful interactions at the intersection of community, people and place.

Assembly was created with flexibility in mind, offering the possibility to design with a systematic approach to yield unique and thoughtful installations. Shifting accent placements lend additional character to the collection.

Maintain a consistent accent color while changing the neutral base.

Maintain a consistent neutral base while utilizing multiple accent colors.

Collection components

Assembly is a system of products thoughtfully designed to work individually or in unison. Combine pattern, scale and accents to promote wayfinding, brand identity and flexible spaces.

Support

Has five neutrals to lay the foundation of an environment in a textured pattern.

Establish

Offers five neutrals and five saturated hues that can be used in a variety of ways with its more open, organic pattern.

Convene

Neutral and saturated hues overlap in the same open, organic pattern, providing 25 color combinations—an incredible variety of choice.
