

# Seren

An adaptable & more intuitive  
task chair

orangebox

## Product Description

What makes Seren so simple and satisfying to use? The fact that, while providing the greatest range of adaptability we can, we've committed ourselves to making it more intuitive to use than ever before.

The Seren chair now does much of the work for you, so there's less for you to adjust. Its weight balancing mechanism, for example, automatically delivers the right amount of resistance when you recline, so you don't have to think about it and can just get on with what you're doing.

Seren is available in black or white, and with a choice of polished or black five-star bases. As with all of our more complex products, full specification options are as scheduled within our latest price list.
